Dear Governor Cooper,

Many thanks for your strong administration facing tough opposition.

I would suggest a win/win for our state which would ensure your enduring legacy as governor. CLEAN ENERGY! Fortunately we have in this state an organization, NCWARN, which has been tirelessly working for years to provide a clean future for our communities. Their most recent project, CLEANPATH 2025, shows a path with solar Energy and battery storage which will bring our state to the forefront. Pipelines are being pushed by those who care only about profit, not the health and well-being of the people here.

Deny this latest dirty pipeline project and be the governor we elected you to be.
We applaud you for doing the right thing.

Sincerely
Pat Moore
Charlotte
